Agile method

Google analytics

Tech marketing

Market research

Linguistics

Pedagogy

### Activities

ServiceNow Lunch-and-Learn speaker

ServiceNow EO Craft Summit speaker

Alternative Spring Break UX Volunteer

UMSI Website Heuristic Evaluation Volunteer

## EXPERIENCE

### ServiceNow

Product Designer

Jun 2020 – Present

- Working at the Platform team, craft the experience for UI Builder, a low-code app-building platform. Shipped multiple features to accelerate time-to-market for ServiceNow apps targeting pro-developers and citizen developers.
- Designed the V1 of an end-to-end building experience for ServiceNow forms, the most fundamental data component at ServiceNow. Consolidated the creation and editing experience from 15 tools into a unified product through exploratory research, rapid testing, iterations, and cross-functional collaboration.
- Ensured the consistency of 100+ component configuration designs on UI Builder by creating design guidelines and a video tutorial for internal contributor teams.
- Contributed 11 new icons and a component variant design and its usage guideline document to the Now Component Library.

### Zell Lurie Institute, University of Michigan

UX Designer

Sep 2019 – Apr 2020

- Shipped a complete redesign of the Content Management System (CMS) for LineLeap, a YCombinator-supported nightlife marketplace startup. Transformed the system from an internal webmaster platform to a business-facing analytics dashboard and an inventory management application to expand the business.
- Streamlined the pass creation workflow of the platform and reduced necessary steps for bar owners to add inventory by 50%.

### Clinic, Inc.

UX Intern

Oct 2019 – Dec 2019

- Revamped the personas and documented common workflows for Clinic's enterprise-facing conversational AI platform using and contextual inquiries. Revealed eight major challenges of the AI developer platform and suggested a series of actions that led to the team's 2020 development roadmap.
- Communicated key usability issues and proposed design recommendations for a versioning feature and a new script editor design of the AI platform.

### Essential Products Inc.

UX Research Intern

Jun 2019 – Aug 2019

- Conducted usability studies for the interface design of a mobile phone. Evaluated the usability of the OS on the device's unique form factor and provided potential design solutions to improve the interaction experience.
- Using an internal workshop and synthesis from desk research, determined the target user groups and compelling use cases to provide insights into future product pitch and marketing directions.

### Synology Inc.

Marketing Specialist

Oct 2016 – Jul 2018

- Developed go-to-market strategies for Synology, a leading network-attached storage brand offering hybrid cloud solutions, through field and market research.
- Managed web development projects for online marketing campaigns and offline events, contributing to 20% growth in event registrations in Dubai.
